for decades millions of christians have discovered william barclay s daily study bible to be the ideal new testament commentary series for both devotional reading and serious bible study now carrying foreard brilliantly the pattern established by barclay the daily study bilble has been extended into a coverage of the entire old testament invaluable for individual devotional study for group discussion and for classroom use the daily study bible now provides a useful eliable and eminently readable way to discover what the old testament writers were saying then and what god is saying today

true believers international version study bible gives a comprehensive interpretation of the holy scripture this study bible retains the name allaha god as used in original aramaic texts akjv of 1611 translated allaha as god but allaha is unique in that it has no feminine gender like goddess or plural like gods or different levels like god and god and god therefore the unique name allaha is retained to refer to god the creator generally accepted chapter and verse numbering scheme is used for easy comparison and reference this is the result of years of in depth research difficult sentences have been simplified context and meaning of verses are explained this study bible will contribute to the understanding of holy scripture in the larger context of today s multi cultural world current volume contains only the book of genesis other books of bible are published in separate volumes

genesis is the first book of the bible and in many ways offers us the bible in miniature it is a book of beginnings indeed it s original title in the ancient hebrew was bere shith which translates in the beginning which are the first words of the book parenthetically that is the way many books in the bible were originally named in both jewish and christian circles genesis is believed to have been written by mooses who also is also believed to be the author of the next four books of the bible those five books known as the pentateuch which means the five are believed to have been written during the forty years when the jews wandered in the wilderness following the exodus from egypt it should be pointed out however that genesis is made up of many stories of a traditional nature which may date back hundreds of years before mooses time it might be more accurate to say that mooses was the compiler of genesis drawing from oral histories and folk tales and weaving them together into a coherent narrative the work was his but the material was almost certainly traditional many biblical scholars although certainly not all believe that there are three specific sources represented in genesis and the other books of the pentateuch which range in origin from the tenth to the fifth century bc they are as follows the j strain named for jahweh yahweh which is the personal name for god in the old testament the j strain is an amalgamation of divine revelation and scientific data the e strain named for elohim which was one of the early names for god this strain consists mainly of dreams and divine revelations the p strain called the priestly strain because it deals much more with the specifics of dates details and descriptions explaining providing a bridge as priests do this can be confusing at times because there are instances when the three strains contradict one another and in some sense each has its own distinctive theology it should also be said that while this theory is widely held it cannot be conclusively proved for all practical purposes it is best to think of mooses as the author understanding that he would have borrowed from a number of different sources in creating the book we should also understand that for a period of more than a thousand years genesis and the other books of the pentateuch were subjected to editing

and revision indeed genesis was not set in its final form the form we read today until about 250 bc when the translation was made into the greek in your bible study you will come across the word septuagint sept too uh jint which is the name given to that translation because it was done by 72 jewish scholars who were brought to egypt by ptolemy ii to translate the five books written by moses the book of genesis is important to us because it is the foundation for understanding the rest of the bible all of the great themes of the bible are introduced in genesis and one of the pleasures in studying the book in detail is being able to pick them out when they appear christians particularly will find all of the theme s of jesus ministry in this remarkable book which is not surprising because he would have studied genesis in essentially the same form that we will study it in these lessons

radio messages from j vernon mcgee delighted and enthralled listeners for years with simple straightforward language and clear understanding of the scripture now enjoy his personable yet scholarly style in this 60 volume set of commentaries that takes you from genesis to revelation with new understanding and insight each volume includes introductory sections detailed outlines and a thorough paragraph by paragraph discussion of the text a great choice for pastors and even better choice for the average bible reader and student
